SONG.

BY NICHOLAS LINNEY.

Air—"The valley lay smiling before me."

The headlands were flowing before us;

As we flew through the wide open sea;

While those left behind us adieu us,

Sighed farewell, *adieu* us.

I looked o'er the waters beneath me,

And those who in sorrow did greet me,

Now stood on the sea-beaten shore.

It was a clear cloudless morning,

The wind from the southward it blew;

The sun rose the blue waves adorning,

O'er which like a sea-bird we flew.

'Twas then that my heart beat in sadness,

At leaving my country behind—

And none could afford me the gladness,

Which comforts the wearied in mind.

For there lay the scenes that I cherish,

Which never can leave my fond heart;

Oh, never can that memory perish,

Though oceans may keep us apart.

Then give me the broad billows leaving,

That bear me away o'er the sea—

'Tis the home of our fathers we're leaving,

To dwell in the land of the free.

Choice Miscellany.

KANSAS AS I SAW IT.

WE have condensed from the Atlanta Examiner, says the Augusta Constitutionalist, the communication of Mr. Margenau A. Bell, who recently visited Kansas, and furnished the editor with some of his observations in that Territory.

Mr. Bell writes:—Having just returned home from Kansas Territory, at the solicitation of several of my friends, I offer to the public some of my observations in reference to this great theatre of political excitement.

I landed in Kansas on the 26th of April, at Atchison, a small village which is about thirty miles from the Southern boundary of Nebraska. The population of this place numbered five hundred. It is situated on a bend in the Missouri river. The country in and around Atchison is hilly, or rolling, which is mostly the case along the Missouri.

This village is thoroughly pro-slavery—perhaps there is not an abolitionist in the place. So strong does the southern feeling prevail.

From Atchison I proceeded westward into the country, some twenty-five miles, and round about to Lawrenceville. Here I found a flourishing town of about eighty hundred inhabitants, at least two churches, on a small scale, quite a number of mercantile establishments, and a good school for the purpose of teaching a school.

From Lawrenceville I proceeded to Leavenworth, who are doing a splendid business—getting rich fast.

The private dwellings are generally small—some neat and comfortable.

A four story brick hotel is under contract here, and will be finished by Christmas, or before. The "Kansas Herald," a fine southern paper, is edited by Capt. Easton, a man of gentlemanly deportment, and whose acquaintance is greatly recommended by me. He was a member of the Kansas Legislature, and introduced that clause which requires an Attorney to take an oath to support the Kansas Nebraska bill, and the fugitive slave law.

The country immediately around Leavenworth is more rolling and not so fertile, as that around Atchison. Leavenworth is also on the Missouri river.

Thence I proceeded to Leavenworth, the Capital, situated on the south side of Kansas river. The foundation of the Capital is laid, and is to be built out of rock, at an expenditure of seventy thousand dollars, appropriated by Congress. This place is thirty-five miles from Leavenworth, and a more pleasant and agreeable site for a city is seldom found.

The lands surrounding this city for many miles, are not to be excelled by any in the Territory. "The Delaware Reviser," opposite Leavenworth, on the north side of the river, is the richest land I ever saw in all my travels. It has some fine timber, and is well adapted to agriculture.

Leavenworth has some two hundred inhabitants. One hotel—not completed. The most of these improvements have been made this spring.

"The Leavenworth Union" is a spring pro-slavery paper. I was there and saw the first issue. It promises well. City lots range from fifty to three hundred dollars a lot.

Lawrence, the fort of Abolitionists, is situated on the same river, some fourteen miles below, and has a population of some seven hundred. I did not visit Lawrence. While at Leavenworth I made the acquaintance of Gov. Shannon, Gen. Whitfield, Col. Woodson, Gen. Calhoun, and other prominent men of the place. The Governor is a thoughtful man—a man, I think, of the office he dignifies. I took him to be about fifty-five years of age. He is of medium height, and of good personal appearance, grey headed. Gen. Whitfield is over six feet high, and though a man of unassuming pretensions, yet there is something about him which commands respect and inspires confidence. Col. Woodson is a gentleman in every sense of the term. Gen. Calhoun is about fifty years old, at a nervous, sanguine temperament, quick and full of life, a strong positive man, and an ardent supporter of the law of the land. It does not hesitate to speak; prompt to duty.

I visited, also, Kickapoo, Delaware, and Doniphan, small villages situated on the Missouri. One paper published at Kickapoo, and another at Doniphan. "The Scatter Sower," I forgot to mention, published at Atchison, all pro-slavery papers. This speaks well for our rights in Kansas.

The press is wielding a good influence for Southern rights in the Territory.

Kansas is a prairie country, undulating, or rolling, generally well watered. The greatest objection I have to it is the scarcity of timber, which will necessarily impede its development.

For the Kentucky Tribune.

Necessity of a Reform Party.

Whoever has watched the progress of the American party in this Territory, to the present time, may be surprised at the rapid strides it has made, and the prospects of its future triumph. Is there no necessity for this reform party? If not, why have its disciples taken such deep root in the hearts of the American people? If there was no compelling cause, why were the ranks of the great old Whig party scattered to the winds, and Democracy quail beneath its ponderous tread? There is a necessity for it, else the American party could never have gathered such force, and now entertain such bright hopes of success.

As its first principle, it has the safety of the republic at heart. It attempts to guard against the evils that may arise in the future, as well as to eradicate present ones. It looks toward Rome and behold the enemies of the Republic gathering in countless throngs on our shores. It meets them at the threshold and welcomes them to a home in the land of liberty, but at the same time, it attempts to discriminate between them and the native-born. Is there any injustice or oppression in this? It proposes to give them time to learn and to love our institutions, and to learn their prejudices and errors, lest not understanding us, they may turn against us.

This is not done in the spirit of persecution, but enthusiastically in self-defence. It can, indeed, be no persecution to take from the hands of the misanthrope, the weapon he threatens to play us with, though it may be his own. Nor is it persecution to deprive the foreigner of that which granted, can be of no benefit to him, but might prove to be the root of irreconcilable evil to the republic. We are no enemies to the foreigners. Our heart bleeds at the recital of wrongs they have suffered. We sympathize with them because they are oppressed. We love them because their bosoms are warmed with the same feelings that led the fathers of the republic to seek a home in a strange land, and we welcome them as guests, with the warm hand of hospitality, but we are not willing that they should enjoy the privileges of the elective franchise, until they can thoroughly learn to appreciate it. When they have learned the pure air of liberty for twenty years, they can then learn to appreciate its mission, and enter upon the duties and responsibilities of an American citizen. Then in the rupture of their souls will they proclaim.

"Great God! we thank thee for this home, This bounteous birthland of the free; Where wanderers from afar may come— And breathe the air of liberty."

The voice of prophecy bids us beware. The signs of the times indicate that a day of well deserved retribution is at hand. If the elective franchise has been abused; if importations and transfers of foreign population, have been made to control the elections of the American people; if the foreigners are to be treated with every right and privilege of the native-born before they can prove themselves the friends of American liberty, it is time that it should no longer be tolerated. In our extensive love for them, forgetful of our country's interest, "one prodigious ruin shall swallow all."

The foreign population, inasmuch as they have proved themselves to the pure spirit of republican principles, are the objects of dread, and we cannot too soon fortify the strong holds of the nation. In another age, among a people no less heroic, and far more powerful than we, there was a city called the Eternal City, which dates its decline from the time when all the world were allowed to reclaim, "I am a Roman citizen." The rule holds no less good in this age than it did in that—and it only remains for the true and loyal supporters of the constitution to rally around the flag of liberty, lest the vampire wing of foreign influence may lure it into a fatal secret and draw from it the blood that gives it life.

Strong measures have already been taken to arrest the threatening evil, and were the friends of the union now to leave their good work unfinished, it would prove worse than dangerous, and even fatal, for the foreigners are now thoroughly aroused, aided by a party professing to love the union, only but adding fuel to the flame. Let young lions having but lately tasted blood, they feel their strength and vigor, and are eagerly looking about for their prey.

The priceless heritage left to us by the fathers of the constitution, cast as two much blood and treason to be regarded with a careless eye. It is now an effort to preserve it. It must be done. First, let "America be Americanized."

South American leader.

This part of the Orator, we repeatedly saw water-snakes swimming from one island to another, and in some instances they passed over the boats, to the great alarm of the passengers, but without attempting to do any mischief.

They are of a light green color, six or eight feet long, and swim with about a third of their body raised out of the water, propelling themselves rapidly along by the undulating motion of their tail. We were informed by the boatmen that their prey consisted chiefly of water rats and young birds. The steersman of the launch always endeavored to avoid sailing near the trees that overhung the river, lest the most might detach some of the snakes from their hiding places. An European traveler who visited these parts in 1833, lay down to sleep upon the bank of the Orinoco, and was presently awakened by cries of alarm and horror. What was his dismay when he found himself encircled in the folds of immemorial snakes! The native boatmen's cries aroused him, and he was enmeshed; but the traveler never completely recovered the shock which he had received. His nerves were completely unstrung, and he died of the shock four years afterwards, at Porto Rico.—Venezuela.

There is a dire divine cast trying to persuade girls to forgo marriage. He might as well undertake to persuade ducks that they could find a substitute for water, or roosebuds that there is something better for their complexion than sunshine. The only convert he has made is a single lady, aged sixty.

"Hark, what is the matter?"

"Do not waggon has run away with me green horse, and broke do adreline of de black horse what stands by de corner lamp post across the telegraph."

CLIPPINGS.

Vain glory blossoms but never bears.

Have a care of a silent dog and still water.

The man "who stood upon trifles" has been blown away.

Repentance is not to be measured by inches and hours.

Splendid qualities break forth in dark times like lightning from a thunder cloud.

The thoughtless and impatient shift their eyes to danger, rather than labor to avert it.

The fame which follows true greatness no friend need hold up, and no enemy can keep down.

Be contented and thankful; a cheerful spirit makes labor light, sleep sweet, and all around cheerful.

Woman's "Empire State" is matrimony. Here she is always in the majority—always reigns, and sometimes storms.

It is said that a Yankee baby will crawl out of the cradle, take a survey of it, invent an improvement, and apply for a patent, before he is six months old.

An editor out West, who had been to see Macbeth performed, winds up a criticism on the play with "Shakespeare was a trump!" The editor, we suppose, is a bragg.

Man's moral principles, like the dikes of Holland, or the levees of the Mississippi, need to be continually watched and strengthened. If it is ruined if they are undermined or overthrown.

Why are ladies of the present day like the ladies of Scripture? Because they "tall not, neither do they spin; yet Solomon in all his glory was not arrayed like one of them."

Oratorical Flourishes.

Figures of speech are dangerous things for orators to meddle with, and should be handled with

The Farm and Garden.

POKE ROOT FOR CATARRH.—J. T. M., of Pope county, Ark., writes us: "When my catarrh was bad, I got about three pounds of poke root, washed and peeled it down to two quarts, and gave one quart a day. If the catarrh is down and does not all get up, repeat in an hour. I never knew it fail to cure hemorrhoids or catarrh. No doubt this is a good remedy for many diseases in cattle. From its efficiency in curing gonorrhea, or inflammation of the bladder, it has received the name of 'gout root.' Our correspondent says he is twenty-two years old this day, and wishes it above published for the benefit of the public."

THE FRUIT ORCHARD AND NURSERY.—Go among the bearing fruit trees and examine the trunk and limbs; take out the diseased wood; scrape off the rough bark of the apple and pear, and smear their trunks with soft soap to remove the gum around the base of the peach tree, and from the point of a boiling weak tea pour boiling water into the holes of the worms in the root, this will kill the worm without injury to the tree; shorten the long branches of the peach tree—lighten the soil around all fruit trees with a fork, that the soil may not be cut. If you look for profit from an orchard, cultivate the orchard for its fruit, and not for cotton, peas or potatoes. All amateur farmers and cultivators should have a stock of seedlings on hand, that they may graft choice varieties upon. Grafting is a very simple process, and servants or children can perform it with success, after a few hours' instruction.

TO MEASURE HAY IS MOW.—The editor of the New Jersey Farmer says that he has proved the following rule for finding the number of tons of hay in a given bulk:

Take a mow of 12 or 15 feet in depth, and which has been filled with hay as it was drawn from the mow, and has been lying full spring, and measure the length, breadth and height in feet—multiply them to get the cubic contents. For instance the length is 20 feet breadth 40 feet, and height 16 feet—20 times 40 makes 800, multiply by 16 equal to 12,800 cubic feet, which being divided by 700, the number of feet that makes a ton of 2,000 pounds, will give 18 tons 200 pounds. The top of a mow, say about one-third, we rate at 800 feet to the top, the middle 700 feet, and the bottom of the mow at 600—so the whole bulk would average 700 feet, the mow is 12 or 15 feet deep, but if only 5 or 6 feet deep, count 800 feet for a ton, and so accordingly with other lots.

To all whom it may concern.

DESIROUS to settle up my business, and from bodily infirmity being unable to devote the necessary attention to it, I hereby inform all those indebted to me, and those who may have claims against me, that EZEKIEL FORMAN, of Richmond, Ky., is fully authorized to set for me, in paying just claims against me, and in receiving and receipting for same due me. To those who have claims against me, will present the same duly authenticated. And those indebted to me by note, account, or otherwise, are earnestly requested to call on the gentleman named and settle. He will be in Danville, prepared to give his attention to this business, on the following Tuesdays and Wednesdays, to-wit: the 20th, 27th and 28th days of April next, and the 13th and 14th days of May; and if found necessary and practicable, every two weeks thereafter for several months, on the same days of the week.

All letters addressed to Mr. Forman at Richmond, Ky., on this business, will receive prompt attention. When in Danville, he may be found at my residence.

TO PURCHASERS

OF

DRY GOODS.

WE would call the attention of Purchasers of Dry Goods, to the arrival of a large and complete stock of

Spring and Summer Dry Goods, bought in first hands and at auction, which will be satisfactory. We would call the special attention of purchasers to a most splendid assortment of

Ladies' Silk Goods, various styles; Muslin Dressing Robes; Capa Shawls, very fine; Light Spring Shawls; Plain Shawls, all colors, &c.

Persons in want of any thing in the way of French Collars, we have them from 10c to 46c. Our stock of Jacquard and Swiss Embroideries will pay to look through before purchasing. We have given special attention to the purchase of GENTLEMEN'S WEAR, and have a complete stock; and then we would like to have you examine our stock of Gingham, Irish Linens, Cottons, Ribbons, Brooms, Boots and Shoes, &c.

Also, a large stock of Servants' Wear, in great variety, which, being bought from the manufacturers, can be sold exceedingly low. No second profit to make.

RED JACKET,

Just from Vermont—of the Morgan breed of Horses,
CELEBRATED AS TROTTERS.

WILL stand the ensuing season at my Farm, between Harrodsburg and Shakertown, at TWENTY DOLLARS the money to be sent with the mare, as I will not be troubled with collecting. The privilege will be granted of breeding again and again, if the mare does not prove in foal, as long as I own the horse. Good pasturage will be furnished gratis, during the season, and all proper attention will be given, but no liability for accidents. The season will commence the 1st of March, and end the 1st of July.

RED JACKET is a beautiful bay, 15½ hands high, and weighs when in good condition, 1,150 lbs. He was sired by the celebrated horse Comet, and C. M. by the original Sir nuan Morgan. His dam was by a half brother of Black Hawk.

Red Jacket may be seen at Harrodsburg on the March and April county court days, and at the Batterton House in Danville on the 2nd county court day.
